

Grab Handle

- ✓ simple and fast mounting without tools
- ✓ high load capacity
- ✓ easy to clean

The grab handle is a steel bar that can be attached to the bed. It makes it easier for patients to get out of bed and stand up. It can be mounted quickly without tools and supports a load capacity up to 120 kg.

Features

- simple mounting by one person
- all metal work is powder coated in RAL 9023 (pearl dark grey)
- maximum load 120 kg
- can be used flexibly with any tecfor care bed
